SPECIAL COMMUNICATION

Sir:

Hewlett-Packard Company, assignee of the entire interest in the above-identified patent, respectfully requests the title of this patent application as reflected on the Issue Fee paperwork, and ultimately the issued patent grant, be conformed to the title as amended by the Response to Office Action filed July 12, 2002; such response was entered by the Patent Office on July 18, 2002. It is unclear whether the Patent Application Information Retrieval ("P.A.I.R.") system reflects the correct title (as amended) in the Title of Invention field because the "Title of Invention" field may be alphanumeric-limited and not reflect the extent of the title.

Enclosed herewith evidencing the correct title are 1) the Transmittal Letter for Response/Amendment dated July 12, 2002, 2) a copy of the respective Patent Office-stamped and dated postcard, 3) pages one and two of the Response and Amendment which request the amendment of the Title of this Patent Application to read as follows: **Compositing Separately-Generated Three-Dimensional Images** and 4) a screen print of the P.A.I.R. system for this application showing the Title of Invention as **Compositing Separately-Generated Three-Dimensional Images**

Kindly correct the title (as referenced above) prior to issuance of the granted patent.

Respectfully submitted,

7
